

Technisches Merkblatt Nitro-Universalverdünner

presto Nitro-Universalverdünner is used to adjust the brush and spray viscosity of commercially available nitro, nitro-combi, chlorinated rubber air- and oven-drying synthetic enamel. Please consider the instructions of the varnish manufacturer. In case of doubt please make a pretest.

Order informations

There are no precuts to show.

Disclaimer of liability

This application-technological information is given to the best of our knowledge. The notes mentioned herein are, however, non-binding and do not exempt you from own tests to see whether the products supplied by us are suitable for your special application. The use and processing is beyond our control and therefore exclusively in the responsibility of the user. European Aerosols is let off the liability, unless the liability-based incident is caused by a fault incurred to European Aerosols.

As of: 07.02.2011

This release replaces all eventually earlier issued versions.
