

Technical Information Aircondition Refresher

presto Airconditional Refresher freshens the air in air conditioning and circulation systems in vehicles.

Simply place the can inside the vehicle. The contents empty automatically once the spray activator has been released. Once the doors are shut and the engine is left running, the active ingredients circulate in the vehicle.

It is available in apple, lavender, lemon, orange, potpourri and New Car fragrances.

Use for cars, lorries, buses and vans.

Also suitable as refreshener in living quarters.

Quality and properties

- Simple application
- Leaves a pleasant smell
- Long-lasting protection

- **Smell:** product-dependent
- **Coverage:** one can for cleaning of a air-conditioning system
- **Storage stability:**
10 years if appropriate storage provided (=10°-25°C, relative air humidity of max. 60%)
- **Size:**
aerosol can, maximum nominal volume 150 ml

Environment and labelling

Environmentally compatible: European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal: Please mind the residue inside the containers. Completely emptied containers can be used for recycling. If cans are not emptied, they should be disposed off as "special refuse".

Only for DE: In order to ensure a high reuse and recycling rate, the legislator requires, in accordance with §15 - VerpackG, Paragraph 1, the return of transport, sales or outer packaging, alternatively, however, deviating agreements can also be made.

Labelling: All products of European Aerosols comply with the current status of their labelling regulations. Classification and distinction takes place by the presently legal form of the **Globally Harmonized System of Classification and Labelling of Chemicals** (GHS) or rather by CLP 1272/2008/EG regulations. Our safety data sheets comply with the current form of REACH 1907/2006/EG, article 31 und appendix II,

Using instructions

Before use, carefully read and observe the warning texts on the label!

Application:

- Bring the can to room temperature.
- Operating temperature 5° to 30°C.
- Shake can before use.
- Leave the engine running and set the air circulation to full power.
- Place seat and back rest in upright position.
- Place the can behind the seat and activate it (press once).
- Once the vehicle has completely misted up, leave the engine running for a few more minutes.
- Switch off engine and air the vehicle.
