

Technical Information Bitumen Based Undercoating

MoTip Underbody Protection (Bitumen) forms a delicate elastic, durable seal on the underside of machines, vehicles and wheel cases for all types of vehicles. It protects the undersides from the mechanical and chemical stress of stone chipping, grit, water, rust and the effects of weather.

Thixotropic properties mean the spray can be applied in thick layers without running.

For use:

on bodywork, in workshops, bus construction, at home

Available in 500ml spray cans and also in 1 litre spray gun cans as well as in 1.3 kg and 2.5 kg paint cans.
