## Technical Data Sheet Spotmarker fluo/non-fluo

---

Professional construction site marking for building construction and civil engineering, construction sites and road construction. Also can be used in tunnelling and mining.

Patented one-hand safety cap with easy-touch release for improved functionality and increased safety. Guaranteed marking without painted fingers.

Colour tones: luminous pink, luminous red, luminous orange, luminous yellow, luminous green and luminous blue for fluorescent markings.

Also available in non-fluorescent colour hues: white, yellow, red and black.

The black marking spray can also be used as corrective sprays to remove fluorescent markings from tar.

Fluo/non-fluo Spotmarker can also be used in the following accessories:

- Marking pistol
- Marking wand

Accessories available from all COLORMARK partners.

### Disclaimer of liability

---

This application-technological information is given to the best of our knowledge. The notes mentioned herein are, however, non-binding and do not exempt you from own tests to see whether the products supplied by us are suitable for your special application. The use and processing is beyond our control and therefore exclusively in the responsibility of the user. European Aerosols is let off the liability, unless the liability-based incident is caused by a fault incurred to European Aerosols.

As of August 2, 2022

This release replaces all eventually earlier issued versions.
