

Technical Information Putty for Plastic "styrene-free"

presto Putty for plastics "styrene-free" is a 2-component black polyester putty. To fill scratches and damages and to aftertreat bonded plastic parts.

Due to its thixotropy and softness, profiles and contours can easily be rebuilt. The putty adheres to all customary hard plastics, such as PP, ABS, PA, PVC.

Besides the very good adhesion on nearly all plastics, the putty can also be applied on carbody sheets and zinc coated sheets.
