

Technical Information Starting Spray

presto Starting Spray provides fast-action ether-based assistance for combustion engine ignition problems. The extremely ignitable composition allows a quick start. Simply spray in the engine suction filter.

For use on:

Combustion engines of all kinds e.g. car, bicycles, lorries, vans, chain saws, trimmers, tractors, diesel engines and gas engines

Order informations

There are no precuts to show.

Disclaimer of liability

This application-technological information is given to the best of our knowledge. The notes mentioned herein are, however, non-binding and do not exempt you from own tests to see whether the products supplied by us are suitable for your special application. The use and processing is beyond our control and therefore exclusively in the responsibility of the user. European Aerosols is let off the liability, unless the liability-based incident is caused by a fault incurred to European Aerosols.

As of: April 4, 2011

This release replaces all eventually earlier issued versions.
