

Technical Information Auto-Spray (original colours)

For a perfect lacquer finish in all usual autoseries colours. To repair small and larger damages of lacquer colour-exact at the vehicle.

Recommendation:

To improve adhesion, plastic parts should be primed with [DUPLI-COLOR Plastic Primer art.no. 327292](#).

To protect and to improve metallic paintings from weathering, these have to be coated with [DUPLI-COLOR 2-Coat Clear Lacquer art.no. 191695](#).
