

Technical Information rust eraser

The presto rust eraser is excellent for removing rust from small rust spots.

Due to the fine fiberglass fibers (no wire) intact paint surfaces are not getting damaged - there are no scratches / abrasion marks. Because of the large effect of extremely hard fiberglass any rust is thoroughly removed.

Even for non-scratch solving oxidation on electrical contacts (eg electronic components, mobile phones, etc.). No short circuit risk, as metal-free.

Order informations

There are no precuts to show.

Disclaimer of liability

This application-technological information is given to the best of our knowledge. The notes mentioned herein are, however, non-binding and do not exempt you from own tests to see whether the products supplied by us are suitable for your special application. The use and processing is beyond our control and therefore exclusively in the responsibility of the user. European Aerosols is let off the liability, unless the liability-based incident is caused by a fault incurred to European Aerosols.
