

Technisches Merkblatt Kupferpaste

presto Copper Paste is a soft, copper-coloured multiple-use paste for separative lubrication during high temperatures, high pressure-load and corrosive influences. Even after a long time of use and under extreme conditions the treated parts are easy to de-mount. Suitable for all kinds of screw connections, e.g. for lubrication during assembly of screw- and plug-connections, flanges and gaskets on tanks, engines, turbines, apparatus, armatures, disc brakes and exhaust systems, in chemical and petrochemical facilities, refineries, ceramic-, glass- and metallurgical plants, drying plants and drying stoves.
