

Technical Information Zinc Repair

Ideally suited to repairing and colour matching minor damage to galvanised steel surfaces. Particularly suited to protecting welding seams and for corrosion-prone metals. Zinc coat contains ca. 90% zinc dust in the dry film.

For use on:

Doors, fittings, fences, gutters, drainpipes, crash barriers and containers

Order informations

There are no precuts to show.

Disclaimer of liability

This application-technological information is given to the best of our knowledge. The notes mentioned herein are, however, non-binding and do not exempt you from own tests to see whether the products supplied by us are suitable for your special application. The use and processing is beyond our control and therefore exclusively in the responsibility of the user. European Aerosols is let off the liability, unless the liability-based incident is caused by a fault incurred to European Aerosols.

As of Januar 21, 2010

This release replaces all eventually earlier issued versions.
