

Technical Information Wood Preservation Agent

DUPLI-COLOR Wood Preserving Agent is a solvent-based, open-porous and transparent impregnating glaze to refine and preserve wood in exterior premises. DUPLI-COLOR Wood Preserving Agent penetrates deeply the wood, is water-repellent and protects the wood efficiently from UV-radiation and early wood diminution.

Applications for use: timber wood construction, garden houses, piles, tool sheds, fences. Subsoils: on not dimensionally stable wood parts.
