

Technical Information Anti-drone sheet

presto Anti-Drone Sheet is a self-adhesive bitumen damping foil based on high-quality polymere-modified bitumen and special fillers. Due to good flexibility during room temperature, the foil can easily adapt itself even to curvature. the foil is self-adhesive with a solvent-free glue. The sticky side is protected by covering material.

We offer two variants:

Variant 1: the upper side of the foil is protected by an anti-blockage layer (black) from transport and storage influences

Variant 2: the upper side of the foil has a fleece lamination (alu-silver) with stabilising effect.

Fields of application:

Construction, e.g. facade construction, aluminium window sills, ventilation ducts

Vehicle construction, meachnical engineering, plant engineering
