

Technical Information prestolith pro Multi filler

Professional Putty - now in new, styrene-reduced quality.

To fill holes and unevennesses, to rework pretreated surfaces during repair on car body parts and other metal surfaces, for reconditioning and restoration of wood or concrete surfaces. Even suitable for stoved enamel coating.

prestolith pro Multi Filler is a 2-component polyester filling putty as mixture of a medium-elastic, highly reactive, amino-preaccelerated polyester resin with different mineral, environment-friendly fillers.

Fields of application:
Car sector, machine construction

Applicable on metal, wood, concrete, glass fibre reinforced plastics, zinc-plated and hot dip galvanized surfaces, aluminium. Even suitable for plastics.

For preparation and finishing your filling job, we recommend our presto sand papers. We offer a wide assortment of fine and coarse papers for dry and wet sanding.
