

Technical Information pre-fill System water-based

The ColorMatic pre-fill spray paint can is prefilled with propellant and specific additives and then filled by VitoMat filling machines with the desired coat. Innovative spray and valve technology guarantee the fine broad jet atomisation, a high application rate and constant pressure for best workmanship and professional-quality end results.

The ColorMatic water-based pre-fill system offers a large selection of prefilled spray paint for almost all manufacturers' water-based coating systems.

Application:

Ideal for spot repairs or refinishing parts
