

Technical Data Sheet Linemarker

Special marking of lines and divisions for roads, parking lots and industrial plants as well as safety signs.

Colour hues: white, yellow, red, orange, green, blue, grey, black and traffic yellow.

The grey and black marking sprays can also be used as corrective sprays to remove fluorescent markings from concrete or tar.

The line marker can be used in the following [accessories](#):

- Speedliner²
- Speedmarker long
- Speedmarker short
- Speedmarker 2-Wheel

Accessories available from all COLORMARK partners.

Quality and properties Physical and chemical data

- High coverage, quick drying quality
- Special valve for floor applications ensures sharp edges
- Specially for use in Speedliner²
- Containers: 500 ml and 750 ml
- For permanent markings (durability of the marking depends on the surface as well as location (inside /outside) and daily burden)
- Highly resistant to abrasion

- **Colours:** white, yellow, red, orange, green, blue, grey, black, traffic yellow
- **Storage stability:**
10 years if appropriate storage provided (=10°-25°C, relative air humidity max. 60%).
- **Efficiency:**
Depending on condition and colour of the ground,
500 ml are sufficient for approx. 40 m of 10 cm wide lines
750 ml are sufficient for approx. 60 m of 10 cm wide lines
- **Drying (at 20°C, 50% relative air humidity):**
Dust-dry: after approx. 10 minutes
Dry to touch: after approx. 30 minutes
Cured: after approx. 24 hours
Can be overworked: after approx. 24 hours
The drying time depends of temperature of surroundings, air humidity and thickness of the applied layer.
- **Contents:** aerosol cans with max. nominal volume of 500 ml resp. 750 ml

Disposal and labelling

Disposal: Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labelling: All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

Using Instructions

Before use, carefully read and observe the warning texts on the label!

- Shake can for approx. 3 minutes.
- After you hear the sound of the balls inside the can, vigorously shake the can for one more minute.
- Test spray at an invisible spot.
- Spray distance approx. 25 cm.
- Apply the desired marking.
- In case of use in the Speedliner² marking trolley, attend to the corresponding [<link fileadmin images content produkte colormark aufbauanleitung-speedliner.pdf _blank download>manual](#).

Tips for spray painting

[<link typo3 sysexst cms layout bearbeiten>](#)Temperature should range between +10°C and +25°C, max. air humidity 60 %.

Store in a dry place. Protect from direct sunlight and other sources of heat. Use only during dry weather, in places protected from the wind, and in well-ventilated rooms. Follow the warning texts on the labels!
